Rules

30 Questions + 3 Bonus Questions

- 4 Points for every correct answer
- Negative 2 for a wrong answer
- Negative 1 if no answer
- The team score is calculated as an average, weighted in favor of the higher individual score by a ratio of 3:1. e.g if the higher score is 80 and the lower score is 60 then the weighted average would be $80 \times 3 + 60 \times 1 / 4 = 75$ and not 70 as per the simple average.
- **No other electronic devices, other than your laptop and phone to connect with your Tangentia Quiz Jockey. No outside assist or interaction with your team mate.**
- **INSTANT DISQUALIFICATION if above happens.**
